

DATA SHEET

L2H-TRVZGE

Description

The Link2Home Zigbee Thermostatic Radiator Valve is a smart add-on to your radiator, heating system, and boiler for a DIY multi-room heating solution. Link2Home radiator valves are the perfect solution to help you save energy. You can manage your heating room by room from your smartphone, tablet, or device. This sensor technology means you never have to waste money by heating an empty room or areas of your home you aren't using. Simply turn down the radiator on your Link2Home Pro app from anywhere and save energy.

Requires App:

Requires Zigbee Gateway:
