MONS150TA	150mm Timer Model adjustable from 2-30 minutes 370m <sup>3</sup> /h
MONS150HTA	150mm Timer/Humidistat/Pullcord Model adjustable from 60-90% 370m <sup>3</sup> /h

The Monsoon Silence range is the latest innovative domestic ventilation solution, providing high extraction rates with low energy use and exceptionally quiet running levels. The fan comes with a long life ball bearing motor and a silent back draft shutter preventing air travelling back up the duct and into the room. The casing and impeller are made of durable high quality UV-resistant plastic, which helps to prevent degradation and discolouration of the plastic over time. The Mon-S100, S100T, S100HT and S100PC are also now available in a chrome finish, making this stylish fan match well with any modern interior.
